Allegations of Child-on-Child Abuse
School Procedures

2023-2024

If a child reports a concern regarding child-on-child abuse/bullying to a member of staff, they will log it on CPOMS as 'Child-on-Child Abuse Allegation'.

Their class teacher will investigate by using the pupil flowchart (displayed in all classrooms) and take the necessary next steps.

The class teacher will call parents, regardless of the outcome, so that all involved are aware of potential concerns.

If required, the Senior and Wider Leadership Team may become involved in a more formal investigation.

This investigation will follow the format as laid out below:
